MEMORANDUM

SUBJECT: Contract CS-1912

25X1A

1. [redacted] called today regarding final documentation on Task Orders 4 and 8 requested by Finance. During the discussion, it developed that such final documentation had not been required on the remaining Task Orders in the group 1 through 14. It was mutually decided, in view of the long-term past and probable future life of the contract that it would be in the best interests of both the Government and the Contractor to treat each Task Order under this contract as a separate contractual entity to be closed as such on completion of each Task Order. Accordingly, the contractor agreed to furnish one consolidated set of completion documents on all Task Orders in group 1 through 14, notwithstanding that all such Task Orders other than 4 and 8 have already been settled by Finance. When this documentation is received the net amount due the contractor for Task Orders 4 and 8 may then be paid.
